RE: Call for Revised Five-Year Lists of New Programs 2010-11 through 2014-15

Dear Colleagues:

In anticipation of the annual call from University of California Office of the President, I am asking you to submit divisional lists of proposed academic degree programs to inform the annual "Five Year Perspectives".

The planning timeframe is 2010-11 through 2014-15. Please return your revised list, with a cover letter *briefly* describing each program's goal and fit with academic plans, and two-page summaries of doctorate programs, to the attention of bmoses@ucsc.edu. No summaries are necessary for bachelor or masters programs. This schedule allows for Senate review prior to the anticipated March 2010 deadline for the campus submission to UCOP.

For reference, last year's list, instructions, and the required doctorate summary templates are downloadable and posted <http://planning.ucsc.edu/acadplan/perspectives.asp>.

Please keep in mind that the Five-Year Perspectives are public documents submitted to the California Postsecondary Education Commission and inform campus accountability reports. Deans should select programs for the list accordingly.

If you have any questions, feel free to contact me at extension 9-3223 or Principal Analyst Betsy Moses at extension 9-5161.

Sincerely,

Alison Galloway
Vice Provost, Dean, Academic Affairs
